What is the "trans*inter*Archiv"?

The trans*inter*Archiv was founded in 2005 with the archive of the 1-0-1[one 'o one]intersex exhibition project. Since then it was and is constantly growing and reached a new stage now. You can come and visit the reference library every 1st, 3rd, and 5th monday - from 4 till 8pm. If you cannot make it on one of these days but still want to use the library, just write an email - we will figure something out!

Starting from an emancipatory and depathologizing selfunderstanding and aspiration, we are collecting a wide range of mostly (but not only) German- and English-speaking literature on inter* and trans* issues. You can find theoretical/scientific books and studies, scientific journals and articles, theses, booklets, non-fiction, biographies, guides, magazines, zines, fiction, comics, children books, illustrated books and some films.

For new aquisitions we focus on literature/ books which deal with inter*-, trans*- and queer topics with an interdependent and critical approach. However, due to donations you can also find a choice of curiosities and so-called classics.

We are always glad about book/ magazine etc. donations! Just send an email!

You have a thesis written, which is not read by anybody anymore? You are interested in adding your thesis to the library? Send us an abstract of your thesis!

We are looking forward to welcome you - the team of the trans*inter*Archiv
